Good morning, I would like to report the poor living conditions given to us by employment agencies in Roosendaal on Hofstraat. These are not livable conditions. There is ubiquitous dirt, mouse droppings, cockroaches, belongings of previous tenants, fungus, (I suspect) stolen documents, insufficient security, damaged and worn-out furnitures, and drug residues. I would like something to be done about this case, because we are forced to live here for the next few days.

Greetings.
